Hindusthan Educational Institutions

pursues a philosophy of perpetual acquisition of knowledge and offers an intellectually challenging and rewarding atmosphere. It gives the student the abilities, self-confidence and the desire to go on learning for the rest of their life and to cope with new emerging and challenging situations. We at Hindusthan are firmly committed to excel in education and research, and are fully aware of the future challenges. Apart from strengthening our teaching-learning process, research and extension programmes, special focus is given to extra-curricular, life skills, sports and other similar activities to foster global competency among our students. Hindusthan aims to facilitate and promote studies, research, innovation, and extension work in Engineering, Technology, Arts, Science, Commerce, Management, Computing, Architecture, Polytechnic, Education, Nursing, Allied Health and School Education for achieving excellence at its best. We provide a congenial environment for the holistic growth and all-round development of the student through a suitably designed curriculum and teaching-learning processes.

Vision

Hindusthan Educational Institutions pursue a philosophy of perpetual acquisition of knowledge apart from academic curriculum and emphasizes value-based education to unlock the potential of students, empowering them to approach life with optimism.

Mission

- To provide a holistic educational experience that focuses on the perpetual acquisition of knowledge and the development of strong values.
- To empower the students to unlock their potential and approach life with optimism, by providing them with a supportive and challenging environment that fosters intellectual, social, and emotional growth.
- To create leaders of tomorrow who are equipped with the skills and knowledge to make a positive impact on society and the world.

Hindusthan Industry-Driven Institution

“Education is the passport for the future, for tomorrow belongs to those who prepare for it today”.

The world is ever changing and dynamic and there is an immense need to recognize and provide for an industry driven education.

As the world progresses, the emergence of new industries, technologies, processes, products and services are inevitable. With it, comes the need for professionals or employees with knowledge and skillset required for this work.

HEI prides itself in providing quality education with an industry-driven curriculum directed to employment. With the growing demand for knowledgeable and skillful professionals across various industries. HEI prepares its students by giving courses and training programs that meet the standards of different businesses.

HEI establishes, maintains, and promotes partnerships with the legitimate members of the industry to increase its students employability under the institutional linkages as the “HINDUSTHAN” brand is very familiar in the Field of Engineering and Health Care.
